

TeQ Shield™ 360

Connected technology for a safer workforce.

Tired of managing multiple safety devices from various vendors on different platforms? Missing the big picture from scattered data sets? No clear insights to boost workforce safety and efficiency? Look no further.

Introducing TeQ Shield™ 360 – a unified, safety platform that integrates all your safety devices.

This is the future of workplace safety where every device, every sensor, every alarm collaborates seamlessly to protect your workforce. Our innovative connected safety solutions redefine protection, ensuring that your employees thrive in an environment that's not just secure, but smart.

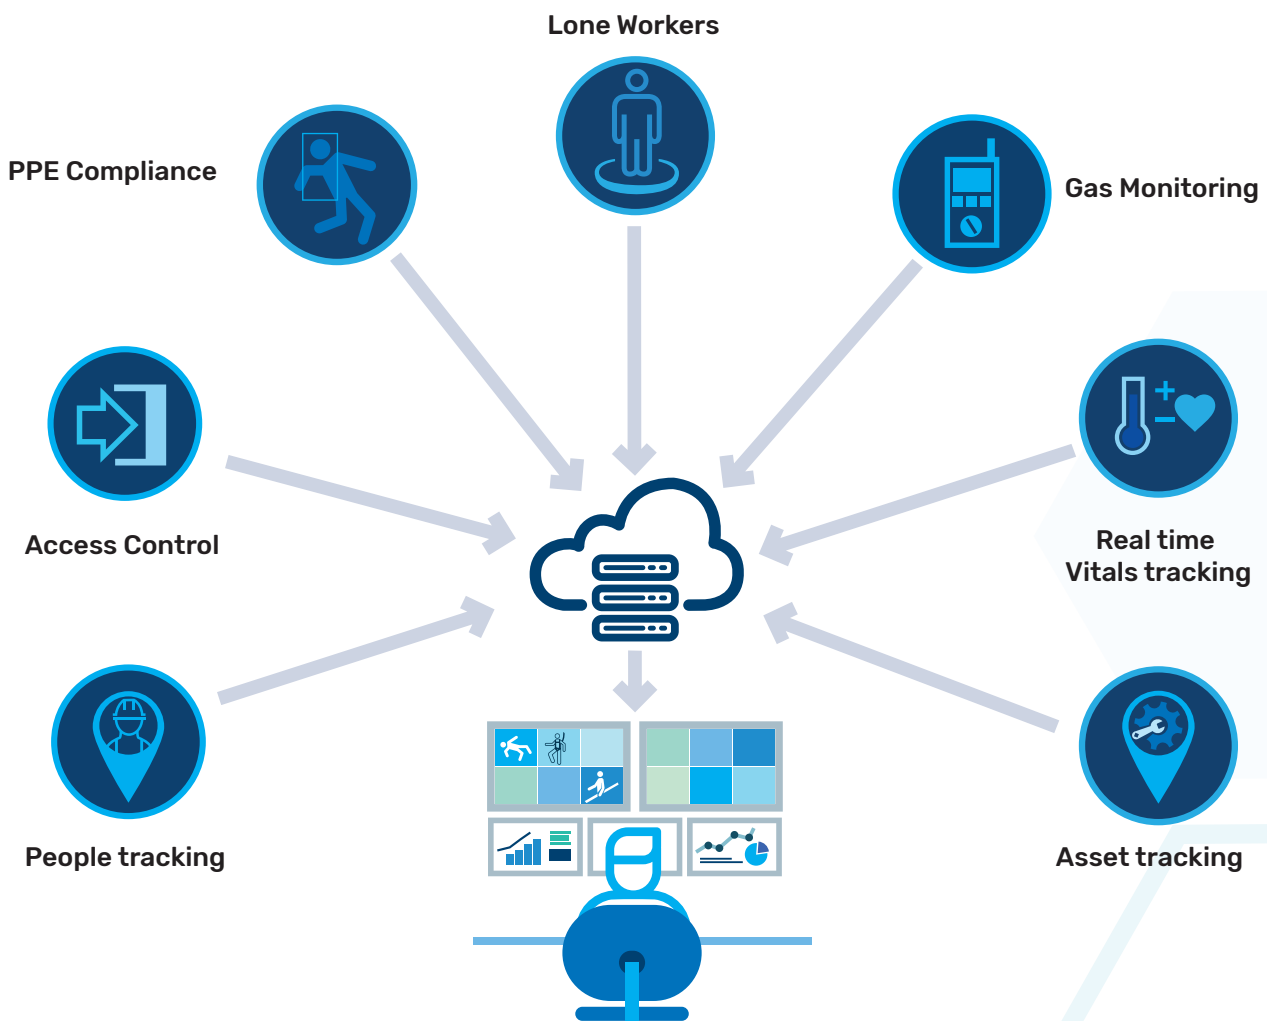

Safety and Productivity. Delivered.

Multiple devices, unified platform.

The rise of IoT brought with it the rise of smarter devices capable of amazing functionality. Smart safety devices can monitor, manage, track and alert personnel adapting to countless situations. The hitch? Each device ties to its own platform. So, more devices mean more platforms, more chaos.

Not anymore.

With TeQ Shield™ 360, you can now integrate all your smart safety devices, no matter the vendor, no matter the function, all under one roof.

One central command centre from where your safety team tracks, monitors and manages all safety-related duties. From gas detection to real time access control, PPE compliance to bio-metric monitoring, one platform unites it all.

The future of workplace safety is here.

Revolutionizing workplace safety.

Key Applications

Lone worker monitoring

Keep a vigilant eye with real time tracking and communication.

Real time tracking and access control

Pinpoint the exact location of your onsite workers and ensure only authorised personnel enter restricted zones through geo-fencing.

PPE compliance and fall monitoring

Computer vision technology ensures workers are wearing PPE properly. Command Center is immediately alerted to slips, trips and falls.

Bio-metrics monitoring

Monitor workers vitals like heart rate, breathing rate and body temperature in real time to safeguard your workers' well being

Key Benefits

- One unified, integrated IIoT platform
- Zero duplication, zero confusion
- Real-time data access from all safety devices
- Crystal clear data insights
- Maximized efficiency with fewer personnel

Safety and Productivity. Delivered.
